Grant Categories

There is ONE grant category this year: **Major Grants =>\$10,000**

Major Grants should seek to have a broad impact across the entire school district and help prepare our students for success in a worldwide economy.

Review Process

- ✓ The Grants Committee will review each complete grant application it receives. Depending upon the number of grant requests and the complexity of the applications, the review process will take approximately 30 days.
- ✓ The committee may request additional information from the applicant, school administrators or curriculum coordinators.
- ✓ Finalists will be asked to give a presentation on their proposed grant to the Grants Committee, which will not exceed sixty(60) minutes.
- ✓ Applications recommended for funding by the committee will then be reviewed and approved by the Board of Directors. Once grant materials have been received, they remain the property of the school that was the recipient of the grant unless otherwise approved by The School Foundation.

Review Criteria

The Grants Committee uses a combination of objective and subjective criteria when evaluating grant requests. Requests that clearly meet more criteria will generally be viewed more favorably during evaluation.

In general, high-value criteria include innovation, creativity, educational value, student involvement, collaboration between schools and project director commitment. Additionally, those applications that clearly and concisely describe the project and anticipate positive benefits for students in the form of achievement, motivation and character development will be favored during the evaluation process.

**The Foundation will not be able to fund all requests due to budgetary constraints. This does not mean that a rejected request is inappropriate or unsatisfactory.
