4- ROUTINE

5- LOVE

## Why is love important?

Early bonding with a child creates a strong connection of trust.

Love is a basic need that each parent is responsible for providing to their child.

The rest of a child's life is based on the love shown to him or her at an early age.

## Parent & Caregiver Tip

*Be a role model for your child when it comes to showing and expressing love.*

*A smile and a hug go a long way.*

*Without love we cannot live.*
